# Who are we?

Modern Software LLC is a subsidiary of Meenaz International Group with its presence in Oman, Kingdom of Saudi Arabia & India.

2000

Modern software LLC (ModSoft) becomes a part of OOSC group of companies for providing in-house ERP solutions.

2002

Mohammed Habeebuddin and his Excellency Salim Hassan Makki come in partnership.

2016

ModSoft becomes autonomous providing ERP solutions across the nation.

2017

ModSoft Expands business in Cybersecurity & Telecom services via associations.

Establishes subsidiary named Meenaz IT Solutions

2017

2023

ModSoft enhances premium partnership for Actility (France) providing nationwide LoRa Wan solution in Oman.

ModSoft refashions giving "Tomorrow's solution today."

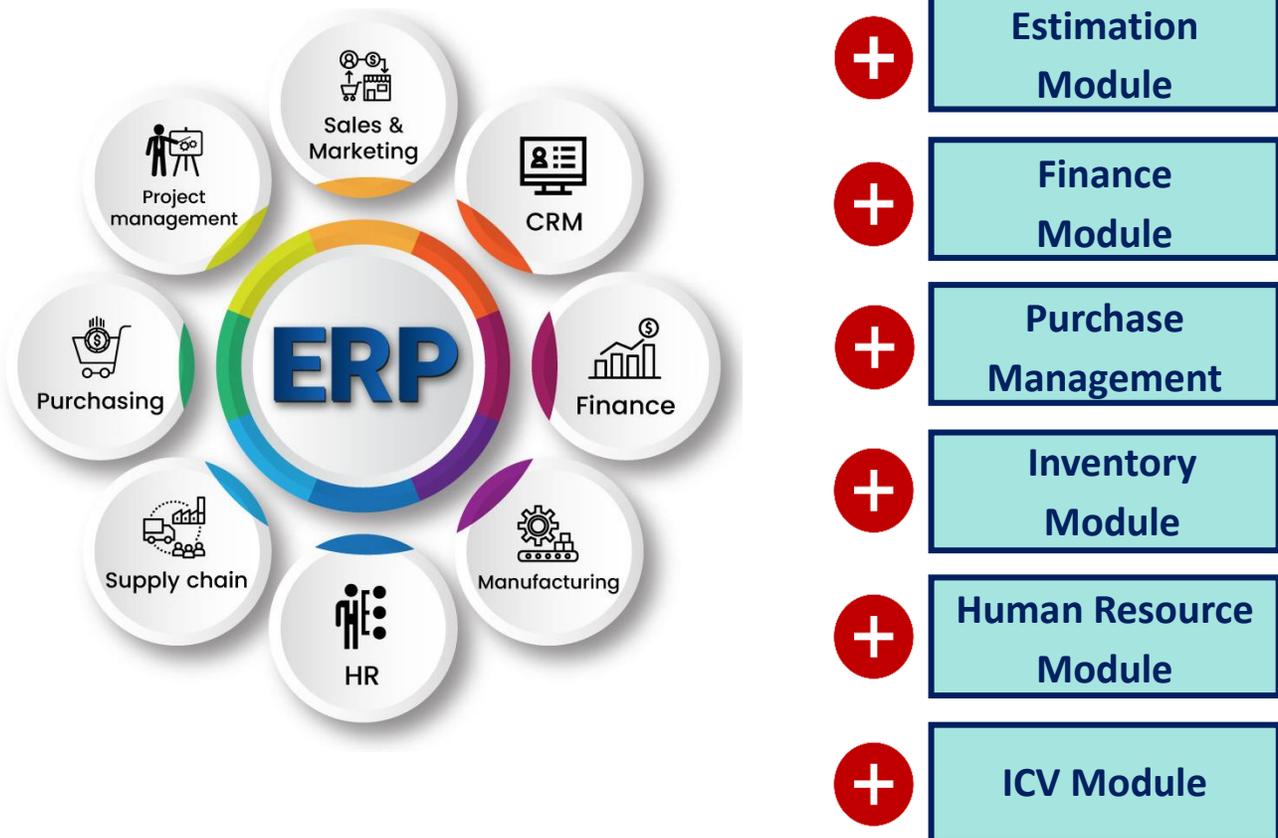

## ERP Development & Implementation

Our Software Solutions for the following Industrial verticals are well-established in Oman and Saudi Arabia with a considerable satisfied clientele.

- Contract Management ERP Solution (Contra MAN)  
40+ Clients in Oman & 10+ in KSA
- Fleet & Logistics ERP solutions (On-Wheels)  
8+ Clients in Oman & 2 in KSA
- College & Institution Management (Horizon)  
2 Clients in Oman
- Laboratory Management ERP (Micro-LIMS)  
4 Clients in Oman
- Complete HRMS Solution (Hominium)  
30+ Clients in Oman & 5 in KSA

## A Complete Contract Management Tool and Mobile App Developed by Industry Experts for Industry Professionals

- Features v/s Price Point Balance is one of the best in the market.
- Fully Compliant to Local Laws & Regulations
- Powerful Tracking CRM Tool from Enquiry to Customer Feedback
- Well Integrated Finance Module
- Purchase Module with integration from Procurement to Payment
- Receivable Module with integration from Order Booking to Collection
- Integrated Inventory Module with Purchase Module
- Comprehensive HRMS Solution with integrated Payroll
- Optional Auto-Attendance & Face recognition Module with Geo-Fencing
- A fully integrated ICV Module
- Estimation, Budgeting & Job-Costing Module

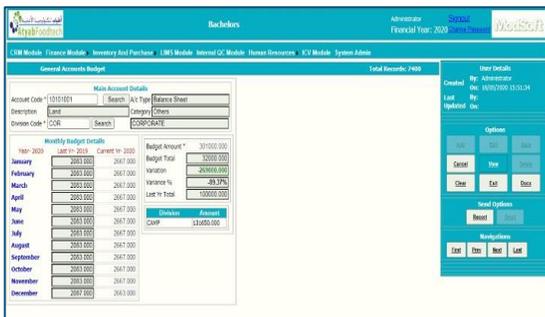

# Financial Modules

Comprising of General Ledger, Receivables, Payables, Cash & Bank, an Automated petty Cash and in-built ICV reporting module, in-built job costing and cost-center performance monitoring, this becomes a cutting-edge tool to seamlessly managing all the accounting needs of a company.

## Finance

- ✓ General & Contract Budget
- ✓ Budget Variance Analysis
- ✓ Actual V/s Budget Reports
- ✓ Real Time Variance Tracking

## General Ledger

- ✓ Recurring & Reversal JV's
- ✓ Dynamic Allocations
- ✓ Posted & Un-Posted Voucher Tracking
- ✓ On-Line Balance Sheet & P&L
- ✓ Flexible Closing Options

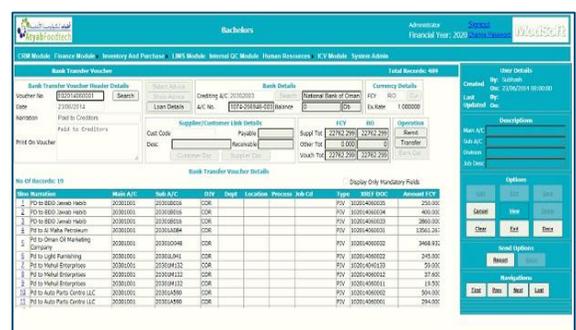

## Receivables

- ✓ Customer Details
- ✓ Credit Control & Tracking
- ✓ Invoicing & Balance Tracking
- ✓ Receipts & Allocations
- ✓ Ageing Analysis
- ✓ Dynamic Ledgers

## Payables

- ✓ Supplier Details with Receivable Link
- ✓ Supplier Log Tracking
- ✓ Supplier Invoices & Certifications
- ✓ Payment Advice & Approvals
- ✓ Payments & Allocations
- ✓ Ageing Analysis
- ✓ Dynamic Ledgers

# Purchase Modules

## Pre-purchase details

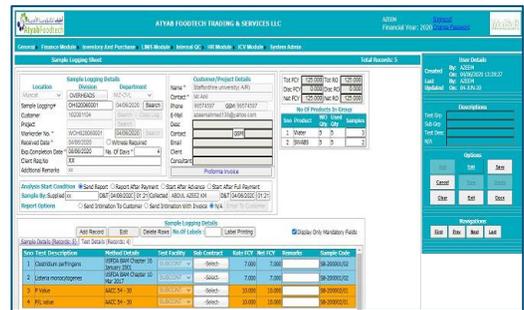

- ✓ Supplier-Items Link
- ✓ Services Details
- ✓ Purchase Requisitions
- ✓ Cash Purchase Requisitions
- ✓ Requisitions Approvals

## Purchase orders

- ✓ Price Collection
- ✓ Price Comparison
- ✓ Regular & Asset Purchase Orders
- ✓ PO Amendments
- ✓ PO Cancellations & Closures
- ✓ PO Analysis Reports

# Inventory Modules

## Pre-acquire details

- ✓ Item Groups & Details
- ✓ Multiple Stores
- ✓ Goods Receipts Note (GRN)
- ✓ Item Activation/De-Activation
- ✓ Stock History

## Post-acquire details

- ✓ Item Issues
- ✓ Stock Transfers
- ✓ Consumption History
- ✓ Stock Adjustments
- ✓ Re-Order / Safety Stocks
- ✓ Replenishment
- ✓ Stores MIS

# HRMS Modules

A well-managed HRMS modules right from manpower Budgeting, Recruitment Costing, Interview Evaluations to selection. Candidates Induction and on-boarding is facilitated with well-updated forms and reports. Smooth functioning of the HR Administration is ensured with well-tested and validated Attendance monitoring, Leave Management and Payroll processes up till the Cessation/Retirement. A series of optional modules like Performance & Appraisals, Violations & Grievance Monitoring, Trainings, Succession Plans, Loan management, Business Travel Budgets & Claims, Inductions, Virtual Document Control, In-built ICV Reporting and Employee Self Service Portal.

## Employee Database

- ✓ Employee Details
- ✓ Dependent Details
- ✓ Reporting Structures
- ✓ Probation & Confirmations
- ✓ Employee Grievances
- ✓ Transfers

## Attendance & Leave

- ✓ Automated Shift-Based Attendance
- ✓ Compatible with Biometrics
- ✓ Multiple Holiday Calendar Management
- ✓ Comprehensive Leave Management
- ✓ Absenteeism De-Activation
- ✓ Task Hand-Over
- ✓ Passport Control

## Payroll & Disbursement

- ✓ Multiple Payroll Processes
- ✓ Multiple Bank Transfers
- ✓ WPS Compliant
- ✓ Automated Payroll JV
- ✓ Integrated Job Costing
- ✓ Highly Customizable

## Appraisals Increments

- ✓ Key Performance Indicators (KPI's)
- ✓ 360<sup>0</sup> Appraisal Management
- ✓ Self-Assessments & Records
- ✓ Appraisal Summary & Records
- ✓ Growth-Path Assessment

# HRMS Modules

## Training Management

- ✓ Training Need Analysis
- ✓ Designation-Training Mapping
- ✓ Training Calendar Creation
- ✓ Training Schedules
- ✓ Training Matrix

## Exit Management

- ✓ Resignation/Termination
- ✓ Designation-Training Mapping
- ✓ Training Calendar Creation
- ✓ Training Schedules
- ✓ Training Matrix

## Employee Self Service

- ✓ Personnel Inquiries
- ✓ Personnel Updates
- ✓ Personnel Requests
- ✓ Communication Centre
- ✓ Team Management
- ✓ Mobile App

## ICV Reporting

- ✓ ICV Categories
- ✓ Omanization Norms
- ✓ In-House V/s External Course
- ✓ ICV Reports

# Fleet management

A fleet management system is a comprehensive solution designed to efficiently monitor, manage, and optimize a company's vehicle fleet. It provides real-time visibility into the location, performance, and maintenance of each vehicle in the fleet, leading to improved productivity, safety, and cost savings.

- Fleet Category Master
- Fleet Type Master
- Fleet Master
- Fleet Deployment
- Route Master
- Contract Master – Fixed Fleet
- Contract Master – Ad hoc Fleet

## Scheduling

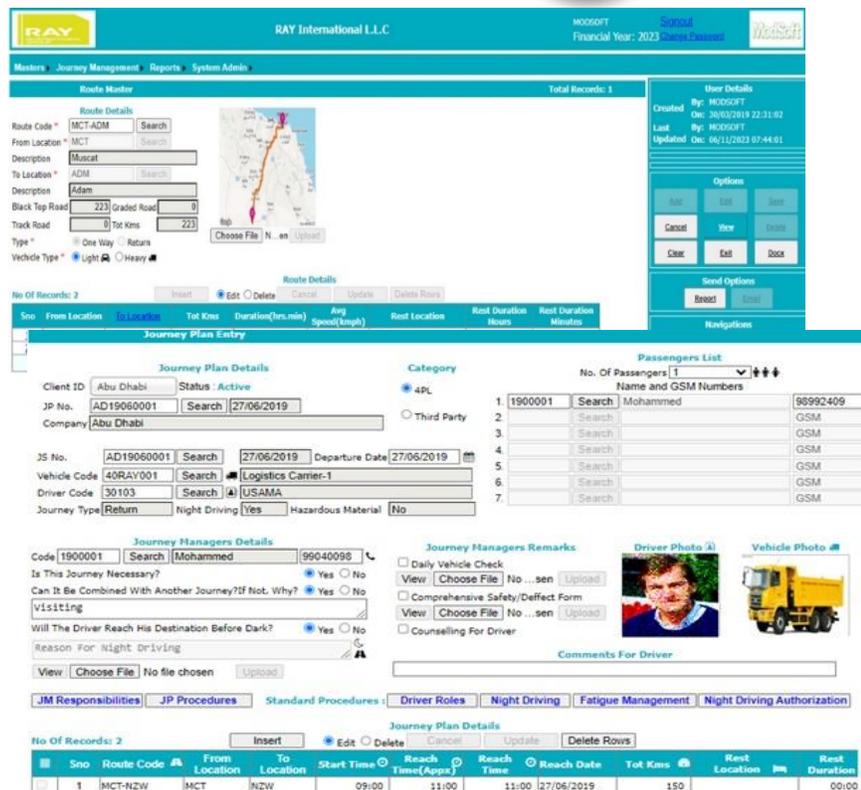

- Daily Deployment Plan
- Journey Plan
- Fleet Location Transfer
- Fleet Deployment to Division
- Fleet Deployment to Company
- Fleet Log Consolidation

## Operations

- Trip Hire Voucher
- Trip Closure
- Contractual Hire
- Trip Invoicing
- Contractual Invoicing

## Administration

- Fuel Rate Master, Fuel Card Master, Daily Fuel Consumption, Fuel Slip Entry, Vehicle Service Schedule, Fleet Policy Details, Fleet Accessories Details, Fleet Calibration Details, Accidents & Fines, Fleet Tire Replacement, Fleet Battery Replacement, Fleet-Equipment KM/Hrs. Updation, Plant Log Sheet (Daily), Plant Log Sheet (Monthly), Purchase Requisition, Purchase Requisition Approval (Dept Head), Purchase Requisition Approval (GM), Material Issues- Spare Parts

## Bug Bounty Platform

Yogosha is a crowdsourced cybersecurity platform.

enabling a win-win collaboration with the most talented hackers to detect and fix vulnerabilities on any critical system.

With Yogosha's platform, you simply define your security challenges, your budget, your need (bug bounty program, crowdsourced pen test, service) and within hours, receive highly detailed and validated reports about potential vulnerabilities and how to remediate.

## Digital Risk Protection

CybelAngel is a Gartner leader in the Digital Risk Protection space & External Attack Surface Management (EASM)

- Identify unknown assets, vulnerable services, and shadow IT.
- Detect supply chain and third-party exposures.
- Find exposed or compromised credentials.
- Discover leaked data, information, and trade secret leaks.
- Uncover dark web mentions and malicious domains.

## Lawful Interception

Global leaders in IT security solutions such as lawful interception (single integrated interception solution. All Networks. All Vendors. All Technologies), surveillance, location-based services, network control, cell coverage measurement devices, and big data solutions.

Solution addresses government and telecom operators.

## Telecom Services & Solutions

# Actility

### Technology pioneer

Co-inventor of LoRa WAN, founding and permanent BoD member, and Vice-Chair of LoRa Alliance. Chairing Technical Committee, multiple WG/TFs. Member with the most contributions to the standard. First to implement latest standards (Class B, FUOTA, public-private-satellite roaming, hub, etc.), revolutionary QoS-based ADR algorithm.

### Most powerful R&D

Over 60 engineers in R&D with in-depth radio and integration expertise. Senior-level experience in telco-grade infra and large-scale delivery.

### Widest product

portfolio Public & private NS, JS, SE/HSM support, OSS/ BSS, Lora WAN/cellular/satellite radio support, FUOTA server, roaming hub, activation, location server, app data management, interop suite, B2B IoT marketplace, and more.

### Market leader

Deployment with the largest footprint. 10+ years of field experience in all regions of the world, 50+ service providers with many Tier-1 nationwide operators, 150+ countries with enterprise deployments, 41K+ connected base stations worldwide, 120+ resellers & distributors in all regions, growth 3x faster than market.

### Largest ecosystem

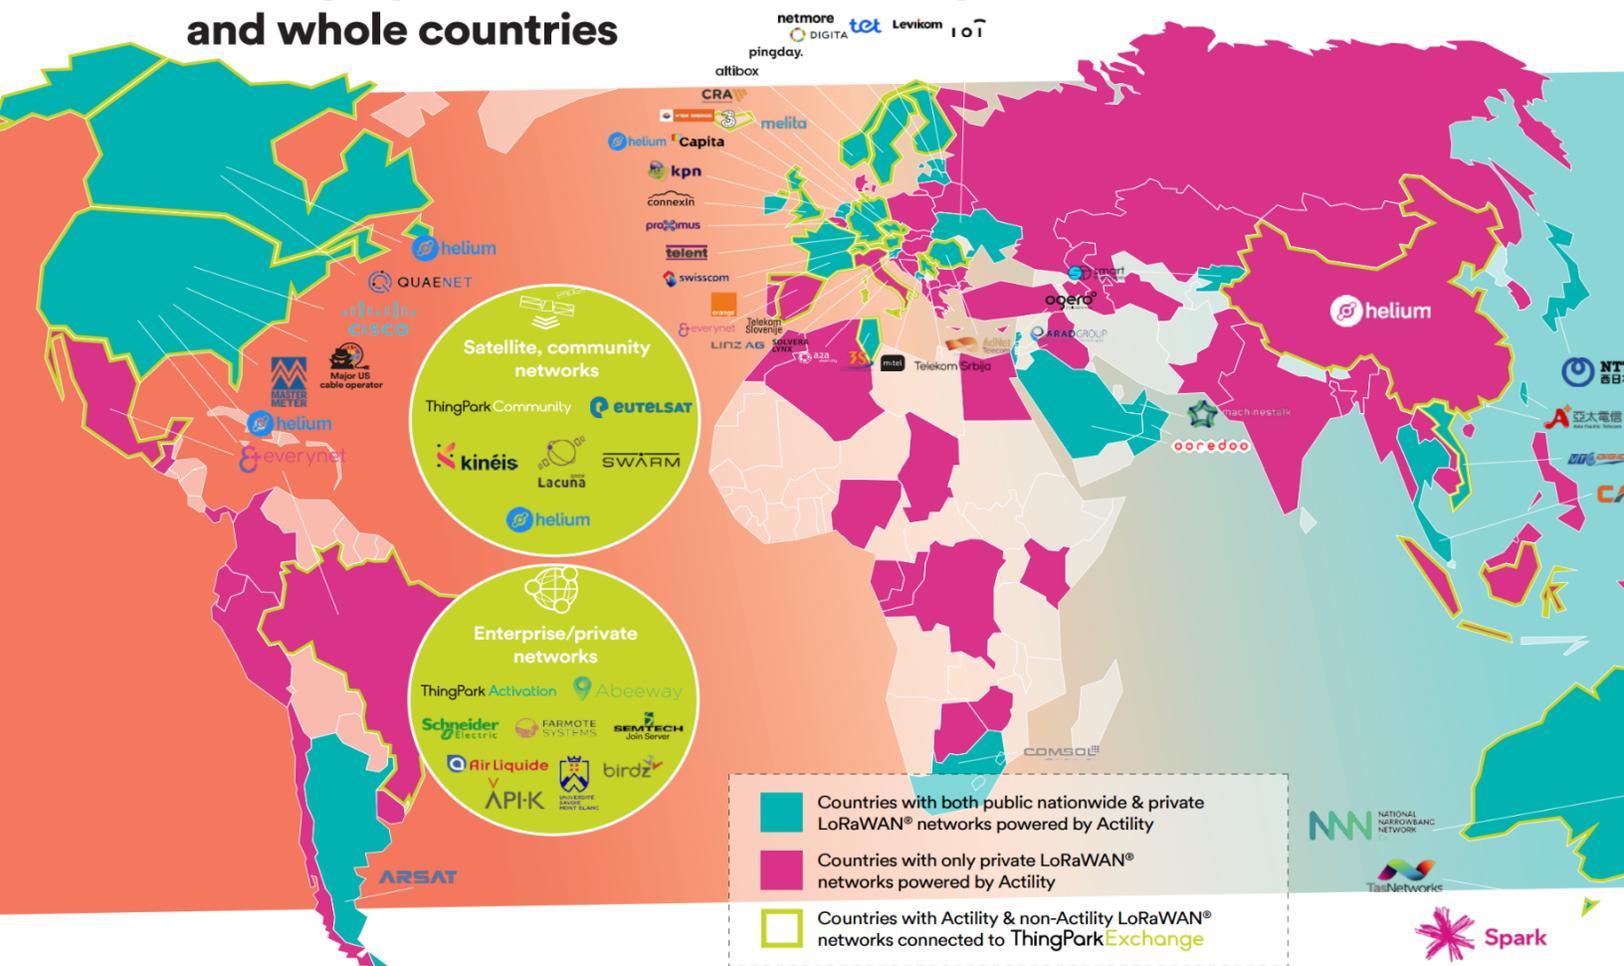

Working with all major GW vendors, app platform vendors, module/device/solution makers, chip vendors, public/private/satellite/community networks, system integrators. Partners with global brands: Accenture, Advantech, Cisco, Total, Schneider, NEC, Volvo, etc.

### Around the world support

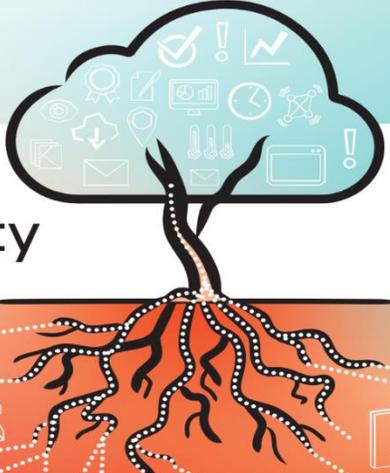

Operational support team in all regions (US, EU, APAC), 24/7 management from regional georedundant datacenters. ISO9001 certified. Telco-grade SLA commitment.

# We deploy IoT networks across campuses, cities, and whole countries

Actility

**Close the gap between the physical and the digital world with ThingPark®, the leading IoT mediation platform.**

*How to reduce costs of time-consuming integration with a diversity of device manufacturers, complex protocols and industrial standards?*

**Benefit from the largest catalog of pre-integrated IoT devices**

We provide built-in profiles and drivers for hundreds of sensors, with a comprehensive library of CoDecs, managing both uplink decoding and downlink commands.

*How to avoid painful case-by-case interfacing with cloud applications requiring manual mapping of each device payload to cloud semantics?*

**Benefit from one-click integration with all leading IoT cloud platforms**

We provide open standard APIs and a comprehensive library of IoT platform connectors with semantic adaptation to their conventions, automatic synchronization and management of device lifecycle.

*How to overcome the complexity of gateway management and avoid heterogenous maintenance tools, painful upgrades, unclear responsibilities, and lack of uniform security paradigm?*

**Enjoy our support of all major gateways brands**

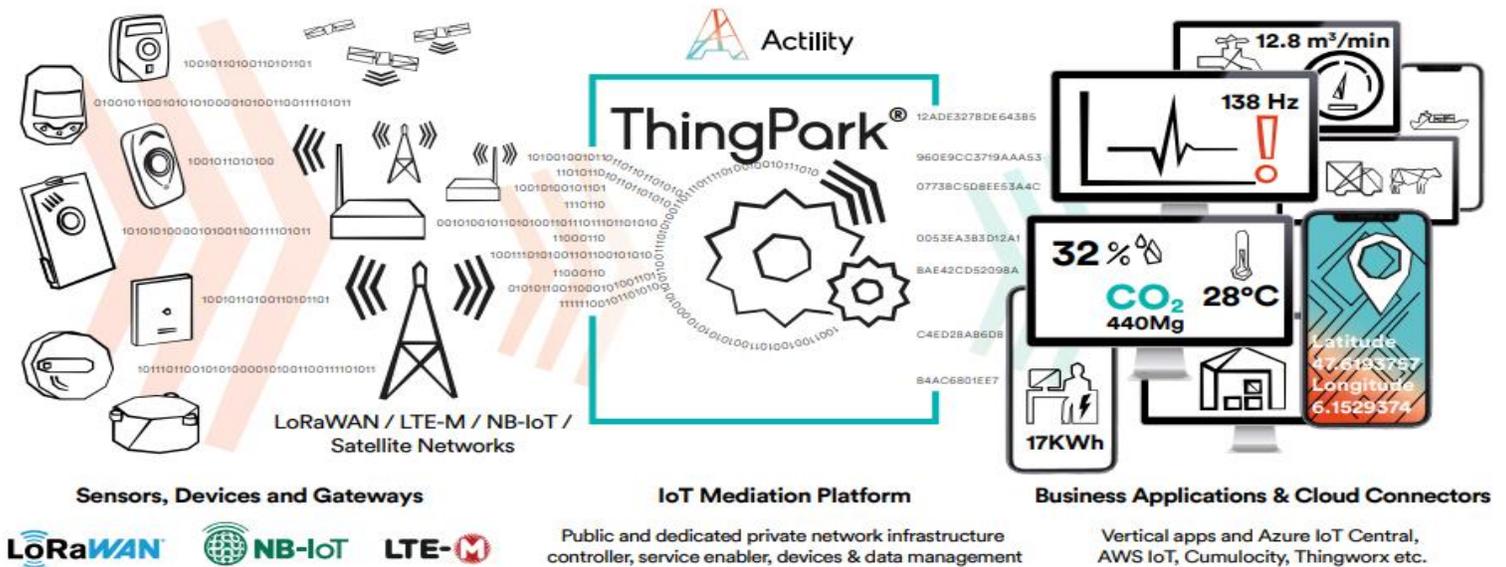

We develop and fully maintain open-source advanced clients for all major gateway brands which provide a unified gateway management protocol, infrastructure commissioning service and fully integrated PKI.

*How to deploy everywhere and avoid network segmentation?*

**Single instance management, for any mix of RF regulatory zones**

We provide comprehensive regional profiles support. We have live deployments at scale worldwide, and we can assist in regulatory interactions.

# ThingPark® is an open multi-radio platform with seamless administration interfaces for end-to-end integration of your IoT solutions

## Access our complete IoT value chain expertise and build IoT solutions with Activity!

Deploy and manage your Low Power Wide Area Networks (LPWAN) worldwide with ThingPark®, integrating not only LoRaWAN®, but also low-power cellular (LTE-M, NB-IoT) and satellite radio networks. ThingPark® Suite is a comprehensive portfolio of IoT products and value-added services, with a focus on monetization of the IoT infrastructure and ROI.

### Connectivity

#### Tools to plan, deploy, operate and monetize IoT networks:

##### ThingParkEnterprise

LoRaWAN® network management for on-premises or hosted private enterprise networks.

##### ThingParkExchange

Peering hub enabling global device activation and connectivity, interconnecting public & private networks.

##### ThingParkWireless

LPWAN core network platform for Service Providers (public & managed private networks) with single interface for LoRaWAN®, LTE-M & NB-IoT.

### Added value IoT Services

#### Dataflow management and data enrichment tools:

##### ThingParkX

Transforming, storing and exposing data to apps and cloud platforms.

##### ThingParkLocation

Multi-technology location service using Abeway Tracking Devices.

### Scalability

#### Device life cycle management tools for large-scale deployment:

##### ThingPark Activation

Secure large-scale device activation service for LoRaWAN networks.

##### ThingParkFUOTA

Reliable firmware update over-the-air update platform for LoRaWAN devices.

### Ecosystem Engagement

#### Tools for device development & market deployment:

##### ThingParkMarket

Marketplace for IoT devices, Applications and end-to-end IoT Solutions.

##### ThingParkCommunity

Crowd-sourced network, self-service portal & IoT Solutions catalog.

Unlock the value of IoT geolocation Tracking solutions for assets and people!

# Get full visibility of your assets with Abeeway

Abeeway is the market leader in low-power geolocation and a provider of disruptive IoT tracking solutions worldwide. Abeeway offers the most energy-efficient, reliable and flexible geolocation solutions using unique tracking devices, long-range and low-power-consumption LoRaWAN® connectivity and breakthrough Low-Power GPS. LP-GPS couples high-precision GPS and a patented cloud computing technology. Offering the fastest time-to-market, Abeeway delivers a complete end-to-end solution for mass-market IoT.

Abeeway is a member of LoRa Alliance® and belongs to the Actility Group. Actility Group is a leading provider of LPWA IoT connectivity solutions, tools, business services and applications, with ThingPark® - the new generation standard-based IoT / M2M communication platform.
