# ERP Development & Implementation

Enterprise Resource Planning (ERP) development and implementation involve creating and integrating software solutions that manage and automate key business processes across an organization. ERP systems centralize data from various departments, such as finance, human resources, supply chain, and customer relations, into a single, unified platform. This integration streamlines operations, enhances data accuracy, and supports informed decision-making.

The development phase focuses on customizing the ERP software to meet the specific needs of the business, incorporating modules and features that align with operational goals. Implementation involves deploying the software, training users, and ensuring seamless integration with existing systems. Successful ERP implementation can lead to improved efficiency, reduced operational costs, and enhanced collaboration across departments. It's a strategic investment that supports long-term business growth by providing real-time insights and optimizing workflows.

3m boom
L:Chassis is on left,boom is on right
R:Chassis is on left,boom is on right

## UHF Long Range Reader

◻ **Specification**

| Model | UF-5106 | UF-5112 |
|---|---|---|
| Color | White | |
| Type | UHF Active Long Range Integrated reader | |
| Waterproof Rank | IP65 | |
| Reading Prompt | Buzzer | |
| Reading Distance | Up to 8 meters | Up to 15 meters |
| Communication | Wiegand 26/34, RS232,RS485 | |
| Optional communction | TCP/IP, WiFi | |
| Frequency | 865~868MHz,902~928MHz | 902-928mhz (FCC),865-868mhz (CE) |
| Protocol | ISO18000-6B/ EPC G2 | ISO18000-6B, ISO18000-6C /EPC C1G2 |
| Working Way | Support auto-running, interactive and trigger-activating work mode | |
| Working Mode | FHSS and fixed frequency | |
| Working Voltage | 100/240V AC – 9/12V DC 3A | |
| Working Temperature | -20℃~+75℃ | |
| I/O Interface | Supports external trigger | |
| Endurance | 2,000,000 times | |
| Gross Weight | 3.0 KG | 4.7 KG |
| Dimensions | 420 x 330 x 130 mm | 450x450x70mm |

◻ **Application**

➤ Logistics and warehouse management

➤ Production flew-line management

➤ Vehicle no-stop toll management (car parking lot)

➤ Animals' recording management

➤ Products anti-counterfeiting detection

IP65    Distance    WiFi (Optional)    TCP/IP (Optional)    Wiegand

# Social Media Marketing

Social media marketing services are essential for businesses looking to establish a strong online presence, engage with their target audience, and drive growth. By leveraging platforms like Facebook, Instagram, Twitter, and LinkedIn, these services help companies connect with potential customers through tailored content, strategic campaigns, and data-driven insights. This includes content creation, community management, paid advertising, and analytics reporting to optimize performance. Social media marketing services also focus on building brand awareness, fostering customer loyalty, and generating leads by creating engaging posts, running targeted ads, and monitoring audience interactions. With a deep understanding of social media algorithms and trends, these services ensure that businesses stay ahead of the competition, effectively communicate their brand message, and achieve measurable results. Whether for small startups or large enterprises, professional social media marketing services are crucial for maximizing online visibility and achieving long-term success.
